

**LET'S STOP FORD'S CUTS**

**AND PROTECT PUBLIC EDUCATION**

**As we head back to school, teachers and other educators are ready to fight the Ford government's cuts. We want to make sure our public schools are giving Ontario students the best start. As part of our contract negotiations, we're pushing for better learning and working conditions.**

These are our priorities for students:

- ✓ **Protecting Full-Day Kindergarten.** Teachers and Designated Early Childhood Educators work as a team to give Ontario students their best start. The government is putting this program at risk. We'll fight to protect it.
- ✓ **Smaller classes.** Our kids need more one-on-one time, not less. Smaller classes set students up for success with more focused learning, and more opportunities for teachers to connect with each child in their class.
- ✓ **Support for students with special needs.** Kids need more support than ever, but the government keeps cutting and that's affecting classrooms and putting more pressure on families. We need more special education teachers and Educational Assistants, and funding to help families that need support.
